About Me

I am a passionate and Frontend Developer with 2 years of experience in building responsive and intuitive web applications. Proficient in HTML, CSS, and JavaScript, with expertise in modern frontend frameworks like React.js and Next.js. Skilled in translating design mockups and wireframes into clean, efficient, and pixel-perfect code while adhering to best practices and web standards. Adept at collaborating with cross-functional teams to deliver high-quality software solutions that meet user needs and business objectives. Continuously learning and staying updated with the latest technologies and trends in frontend development to drive innovation and excellence in every project. Excited to contribute my skills and expertise to a dynamic and forward-thinking organization.

Professional Experience

Kapital Bank | Frontend Developer 01/2024 - present

Key responsibilities:

- Building large and scalable user interfaces with React.js
- Responsive and adaptive design
- Collaborating with backend developers to integrate frontend components with server-side logic, ensuring seamless data flow and functionality.
- Keeping abreast of emerging frontend technologies, trends, and best practices in the banking industry to continuously improve skills and contribute to innovation.
